

Franklin Electric, a global leader in ground water pumping and water pressure solutions, is pleased to announce the re-launch of Coverco submersible product. Coverco is the leading global manufacturer of oil lubricated submersible 4" motors and associated controls. Coverco is a part of the Franklin Electric Group of Companies.

Coverco 4" Oil lubricated submersible motors and controls have been supplied into Australia as the premium oil lubricated motor for over 15 years and have been installed extensively over that time. Previously offered to distributors, Coverco is now available direct to FE dealers.

Coverco products offer you a lower cost product to compete against other oil lubricated motors.

The Coverco 4" oil lubricated motors and controls are priced very competitively for you and available ex stock.
