

## New Product: 6" DR56 motors

With pump applications changing, Franklin's DR56 motors was designed and built in response to requests for a motor that can operate effectively under evolving application demands.

The DR56 utilises our premium encapsulation process to allow continuous operation in water temperature up to 50°C, with minimum flow past the motor.

- Up to 50°C ambient water temperature
- 10,000lb Kingsbury type thrust bearing
- SubMonitor heat sensor
- Sand Fighter Sealing System

Description	Model	Price
6" DR56 Standard Sand Fighter construction, 3ph DOL	276 009 6262	\$8,890.00
6" DR56 316SS construction, 3ph DOL	276 009 6462	\$13,350.00

As a result of the introduction of the 6"DR56, we have model changes to our standard 37 kW and 45 kW standard 30°C motors

Description	Model	Price
6" 37 kW Standard Sand Fighter construction, 3ph DOL	236 698 8147	\$7,110.00
6" 37 kW 316SS construction, 3ph DOL	236 698 4047	\$11,275.00
6" 45 kW Standard Sand Fighter construction, 3ph DOL	236 699 8147	\$8,105.00
6" 45 kW 316SS construction, 3ph DOL	236 699 4047	\$12,915.00

We thank you for your business as we look forward to adding more reasons why working with Franklin Electric is Better For Your Business, because Moving Water is Our Business too.
