New Product: 6 Inch 304SS Encapsulated motors

As the leading global manufacturer of quality submersible motor products, Franklin Electric is pleased to announce the addition of our all 304SS 6 Inch encapsulated motor range.

The 6 Inch encapsulated motor range is now;

- Standard Water Well construction
- 304SS construction
- 316SS construction

304SS construction specs and options are:

- 4 kW through to 30 kW in 304, to 45kW in Std WW & 316SS
- Sand Fighter SiC sealing system
- Removal Water Block motor leads
- 6 Inch NEMA double flange
- Hermetically sealed, anti-tracking resin stator
- Kingsbury Thrust bearings
- IP68 protection
- DOL and Wye/Star Delta windings available
- Pt100 option
- 8 metre lead option

This range of stainless steel motors is fully compatible for use with our FPS SR and FS range of all stainless steel pumps in 304SS and 316SS materials.

Attached are updated price pages for 6" submersible motors. Some Water Well models have been adjusted down to allow the positioning of the new 304SS motors.

From the Company You Trust Deep Down for your submersible pump and motor solutions, more reasons why working with Franklin Electric is Better For Your Business, because Moving Water is Our Business too.
