New Product: 6 Inch 304SS Rewindable motors

As the leading global manufacturer of quality submersible motor products, Franklin Electric is pleased to announce the addition of our all 304SS 6 Inch Rewindable motor range.

As we introduce this all 304SS construction motor, we are discontinuing manufacture of the Standard Water Well motor in the 6 Inch Rewindable construction.

The 6 Inch Rewindable motor range is now;

- 304SS construction
- 316SS construction
- 904L SS construction

304SS construction specs and options are:

- 4 kW through to 37 kW
- Sand Fighter SiC sealing system
- Integral motor leads
- 6 Inch single NEMA flange with M12 studs
- Clear access windings for quick and fast rewinding
- IP68 protection
- DOL and Wye/Star Delta windings available
- High voltages: 1,000V DOL 50 Hz
- High temperature winding option PE2/PA
- Pt100 option

This range of 6" stainless steel motors are fully compatible for use with our FPS SR and FS range of all stainless steel pumps in 304SS and 316SS materials. We also offer Cast Iron and Ductile Iron pump ends too.

From the Company You Trust Deep Down for your submersible pump and motor solutions, more reasons why working with Franklin Electric is Better For Your Business, because Moving Water is Our Business too.
