New Product; - Sump Drainage Pumps

We are pleased to release the start of our range of Sump Drainage Pumps, the ED and EDV series.

This range of stainless steel pumps are made in Italy by Franklin and feature stainless steel impellers.

The ED and EDV feature a single impeller with a two passage impeller on the ED and with a free flow vortex impeller on the EDV models.

All models feature a double shaft seal with interposed oil chamber.

- Single Phase with AU plug and 5 metre lead
- Single Phase with float switch and thermal protector
- 3 Phase models with 10 metre lead
- Suitable for solids up to 35mm² grain size
- EDV free flow impeller suitable for liquids with high solid content or with filamentous particles
- 40mm discharge
- ED available in 5 and 9 m³/hr
EDV available in 5, 7 and 9 m³/hr

Ask your Area Sales Manager for more details about the range of ED and EDV sump pumps
