## New Adelaide warehouse;

Franklin Electric is pleased to announce the opening of our Adelaide warehouse.

Operational from Monday 27 July 2015, the Adelaide warehouse will enable us to dispatch a wide range of water pumping products into the South Australian and Northern Territory areas with the greater Adelaide metro area and many South Australian deliveries now being the next morning to you.

The warehouse has stock including:

- 4" motors
  - 1 phase and 3 phase
- 4" submersible pump ends
- 1 Phase Pumptec and Pumptec Plus motor protection
- Control Boxes – 1 phase
- Spare part capacitors, relays
- Pressure tanks
- SubDrive QuickPAKS
- 6" motors
- Leads, bore caps, splice kits and other accessories

Placing orders is simply a matter of faxing or emailing your order to Melbourne and we will process your order for dispatch that day, subject to transport cut off times. The products will be sent out via road or are available for collection from the warehouse during local business hours.

Of course, as we learn more, inventory can be added to support you even more.

There are NO FEES for placing an order or dispatch and all freight is FREE INTO STORE.

In the meantime, your Franklin ASM has all the details and can assist with any further information.

We trust this new Adelaide warehouse will be 'Better For Your Business'
